5.0 IMPACT ON THE ENVIRONMENT

The company is committed to maintaining a clean environment always. We believe this will create the ability to operate in a disciplined and sustainable manner over the long term. This is fundamental to maintaining a competitive advantage and honouring the deliverables of corporate governance.

6.0 SAFETY

At **Omatando Construction**, we have developed a culture that promotes an injury-free environment and provides the safest workplace possible for our employees, subcontractors, clients and others who enter or who near our construction sites.

Our motto is: "**Every worker goes home from each of our jobs, every day.**" Some of our measures to minimise work related injuries or losses are:

Provision of adequate Personal Protective Equipment

Discouragement of working under the influence of drugs

Conduction awareness campaigns to educate and constantly our employees on the importance of Safety

A construction worker wearing a blue and white checkered shirt and a blue belt is shown from the waist up. He is holding an orange hard hat in his right hand. In the background, a construction site with a blue crane and several concrete pillars is visible under a clear blue sky.

"we go for quality"
